M.Eng. Candidate in AI and Data Visualization at Tongji University

RESEARCH INTEREST

I am a human-computer interaction researcher with a background in interaction design. My research focuses on AI-supported learning and informal learning. I apply user-centered methodologies to identify unmet learner needs and translate them into design implications for educational solutions.

EDUCATION

Tongji University

Sep 2024 - Mar 2027

M.Eng. in Artificial Intelligence and Data Visualization

Shanghai, China

- GPA: 4.88/5.00 (Ranking: 5%) Supervisor: Ling Fan
- Courses: User Experience Design, Introduction to Intelligent Design, Design of Visual Analysis Systems

Tongji University

Sep 2019 - Jul 2024

B.Eng. in Digital Media and Communication Design

Shanghai, China

- GPA: 4.71/5.00 (Ranking: 5%) FYP Advisor: Yang Shi, Guanhong Liu
- Courses: Design Thinking, Design Practice, Open-source Hardware and Programming

Politecnico di Milano

Feb 2023 - Jul 2023

Exchange program

Milan, Italy

- GPA: 28/30
- Courses: Product Design, Exhibition Design, Philosophy of Design

PUBLICATIONS

Full Papers

- Jiang, Y., Zhang, Z., Xu, J., Zheng, Q., Guo, Q., ... Wang, Q. (2026). **Bridging Visual Asymmetry: Exploring AI-Mediated Communication Support for Parents with Visual Impairments and Their Sighted Children in Outdoor Informal Learning.** In *CHI Conference on Human Factors in Computing Systems (CHI'26)*.
- Zhang, S.*, Jiang, Y.*, Ma, R., Yang, Y., Xu, M., Huang, Z., ... & Li, H. (2026). **PrivWeb: Unobtrusive and Content-aware Privacy Protection For Web Agents.** In *CHI Conference on Human Factors in Computing Systems (CHI'26)*. (*equal contribution)

Posters/Extended Abstracts

- Jiang, Y., Xu, Q., Liu, G. (2026). **How Study Hacks Come to Life: Learners' Pathways from Short-Form Videos to Informal Learning Practices.** In *Companion of the 2026 Computer-Supported Cooperative Work and Social Computing (CSCW Companion'26)*.
- Jiang, Y., Yan, X., Zheng, C., Shi, Y., Chen, Q., and Cao, N. (2025). **When Stars Shine through Silence: Affective Visualization as Empowerment for Victims of Subway Harassment.** In *Special Interest Group on Computer Graphics and Interactive Techniques Conference Posters (SIGGRAPH Asia Posters'25)*.
- Jiang, Y.*, Zheng, Q.*, Zhang, Z.*, Guo, Q.*, Xu, J.*, Xu, S., and Liu, G. (2025). **"I Can Only Guess Where She's Looking": Challenges and Design Strategies for Supporting Outdoor Informal Learning Between Parents with Visual Impairments and Their Sighted Children.** In *Companion of the 2025 Computer-Supported Cooperative Work and Social Computing (CSCW Companion'25)*. (*equal contribution)
- Liu, G., Jiang, Y., Yan, X., Cao, N., & Shi, Y. (2025). **City of Wander: Visualizing Scientific Literature for Knowledge Exploration Using Visual Metaphors.** In *Extended Abstracts of the CHI Conference on Human Factors in Computing Systems (CHI EA '25)*.
- Yan, X., Jiang, Y., Cao, N., Liu, G., & Shi, Y. (2024). **Data Visualization of Scientific Literature to Support Exploratory Reading.** In *Proceedings of the ChinaVis 2024 Conference*.

RESEARCH EXPERIENCE

AI Informal Learning System Design

Sep 2025 - Present

Master's Degree Thesis Project, Supervisor: Ling Fan

- Conducted interviews with regular viewers of educational influencers (N = 20) to examine how trust in influencers is formed and how it supports informal learning on social media.
- Explored how trust-mediated interaction design can leverage educational influencers to transform fragmented social media viewing into actionable and sustained informal learning practice.

AI-Mediated Communication Support for Parents with Visual Impairments

Apr 2025 - Sep 2025

Lead researcher | CDI lab, Tongji University, Supervisor: Qi Wang, Guanhong Liu

- Identified the communication challenges between parents with visual impairments and sighted children during outdoor informal learning through interviews, observations and focus group (N = 11).
- Designed and evaluated a Wizard-of-Oz prototype integrating interest detection and prompt generation, supporting communication across visual asymmetry (N = 14).

Privacy Protection Design for Everyday AI Agents

Jun 2025 - Sep 2025

Institute for Network Sciences and Cyberspace, Tsinghua University, Supervisor: Xin Yi

- Conducted interviews examining privacy practices and challenges among independent AI agent developers, yielding empirical insights for design implications.
- Designed a trusted add-on on GUI agents to enable non-intrusive notification and control of sensitive information, uncovering users' delegation strategies by analyzing plugin logs.

Generative AI-Empowered Interactive Systems for COPD Rehabilitation

May 2025 - Jul 2025

SustainableX Lab, Tongji University, Supervisor: Qingfan An

- Prototyped an interactive web interface for patient record management and personalized rehabilitation education based on empirical insights.
- Conducted mixed-methods evaluations with clinicians to assess the usefulness and usability of fine-tuned LLM chatbots and AI-generated visual aids for COPD patient education.

Undergraduate Research - Scientific Literature Visualization

Feb 2024 - Jun 2024

Bachelor's Degree Thesis Project, Supervisor: Yang Shi, Guanhong Liu

- Designed a VR-based literature visualization system that uses an architectural-city metaphor to make scientific papers more accessible and engaging for non-expert users.
- Built an interactive prototype in Grasshopper and Unity, mapping paper themes, citation impact, and publication years into navigable spatial forms and dual-perspective exploration.

HONORS AND AWARDS

- | | |
|---|------|
| • 1st Place of PacificVis Visual Data Storytelling Contest | 2025 |
| • 2nd Place of Design Factory Global Challenge | 2025 |
| • Annual Selected Works of 2025 China Data Content Conference | 2025 |
| • National Scholarship of China | 2025 |
| • Outstanding Graduate of Shanghai | 2024 |
| • National Scholarship of China | 2022 |

SKILLS

- Research Methods: In-depth Interviews, Field Studies, Focus Groups, Thematic Analysis, Wizard-of-Oz Prototyping, Statistical Analysis, Log Analysis
- Prototyping & Tools: Unity, C#, Figma, Cinema 4D, Grasshopper, Adobe Creative Suite, Midjourney, Stable Diffusion, Cursor, SPSS
- Languages: Mandarin (Native), English (TOEFL 110), French (DELF B2)
